

# The Beach Boys, I Can Hear Music

Oo... Ah...

This is the way

I always dreamed it would be

The way that it is, oh

When you are holding me

I never had a love of my own

Maybe that's why when we're all a lone

I can hear music

I can hear music

The sound of the city baby

Seems to disappear, oh when

I can hear music

Sweet sweet music

Whenever you touch me baby

Whenever you're near

Loving you

It keeps me satisfied

And I can't explain, oh no

The way I'm feeling inside

You look at me we kiss and the

I close my eyes and here it comes again

I can hear music

I can hear music

The sound of the city baby

Seems to disappear, oh when

I can hear music

Sweet sweet music

Whenever you touch me baby

Whenever you're near

I hear the music all the time, yeah

I hear the music hold me tight now baby

I hear the music all the time

I hear the music

I hear the music (baby)

Ahh...

I can hear music

I can hear music

The sound of the city baby

Seems to disappear, oh when

I can hear music

Sweet sweet music

Whenever you touch me baby

Whenever you're near
