

# The Beach Boys, That's Why God Made the Radio

Tuning in the latest star  
from the dashboard of my car  
cruisin' at 7  
push button heaven  
capturing memoires from afar  
in my car

that's why God made the radio  
so tune right in, everywhere you go  
he waved his hand, gave us rock'n'roll  
the soundtrack of falling in love  
that's why God made the radio

feel the music in the air  
find a song to take us there  
it's paradise when I  
lift up my antenna  
receiving a singal like a prayer  
like a prayer

that's why God made the radio  
so tune right in, everywhere you go  
he waved his hand, gave us rock'n'roll  
the soundtrack of falling in love  
that's why God made the radio

making this night a celebration  
spreading the love and sunshine to a whole new generation  
whole new generation  
that's why God made  
that's why God made  
that's why God made the radio

that's why God made  
that's why God made  
that's why God made the radio  
for falling in love  
that's why God made  
that's why God made the radio
