And when we, when we do it do it to the beat
She like, "my melody" done by Eric B., and Rakim
Cause she be rockin me steadily, yo

Yo, she got hips to hops
And she ain't goin' pop
She like a record that I wanna rock
When I'm rollin in my ride cruisin down my block
Yo, and if she was a rap song
She'd be "bonita applebum";
And I wanna put you on
I'm puttin you on, you're my favorite song
