

# The Black Keys, Bullet In The Brain

Bullet in the brain  
I prefer than to remain the same  
Bullet in the brain  
I prefer than to remain the same

Looking back on where we used to be  
Everything was clear, still I refuse to see  
Hearts began to burst  
The diamond turned to dust  
You made me talk the pain all out of me

Bullet in the brain  
I prefer than to remain the same  
Bullet in the brain  
I prefer than to remain the same

I know I share the blame for what's in store  
I was in the wrong but anymore  
I let you use my gifts  
To back your lying wits  
I'll never know just what I did it for

Bullet in the brain  
I prefer than to remain the same  
Bullet in the brain  
I prefer than to remain the same
