

The Black Keys, Going Down South

I am going down south
I am going down south
going down south
I am going down south
Chilly wind don't blow

I am going with you babe
I am going with you babe
going with you babe
I am going with you babe
Don;t care where you go

Some other man
Some other man
Some other man
Some other man
He's always hanging around

I'd rther be dead
I'd rther be dead
rther be dead
I'd rther be dead
Six feet in the ground

I am going down south
I am going down south
going down south
I am going down south
Chilly wind don't blow
