The Business, Harry May

Harry runs his business
From above the dodgy Ino
His brother is a chemist
It's a front for Anadin
What's his name? Harry May <i>(x2)

(Chorus:)
Harry <i>(x4)</i> May, Harry (x4) May

Harry's got a roller
A shooter in the boot
Killing is his living
It's where he makes his loot

Now he's turned 60
He's given up his shooter
And he's always on the piss
