

The Byrds, C.T.A.-102

C.T.A.102 year
Over year receiving you
Signals tell us that you're there
We can hear them loud and clear

We just want to let you know
That we're ready for to go
Out into the universe,
We don't care who's been there first

On a radio telescope
Science tells us that there's hope
Life on other planets might exist!
