

# The Call, Memory

In my memory  
I can still see that face  
In my memory  
I can still hear the voice  
I remember talkin' with you  
The stories I could tell  
In my memory, I remember you still  
You gave the poet words to speak  
you were the sun to warm my days  
You put us in each others hands  
You gave me love before I asked  
In my memory  
I can still see that face  
In my memory  
I can still hear the voice  
I remember talkin' with you  
The stories I could tell  
In my memory, I remember you still  
I feel my heart will surely break  
I've taken all that I can take  
You were the light for me to see  
You were the sky that covered me  
In my memory  
I can still see that face  
In my memory  
I can still hear the voice  
I remember talkin' with you  
For hours by the well  
In my memory, I remember you still  
In my memory I can still see the eyes  
In my memory  
I can still feel your touch  
I remember talkin' with you  
The stories I could tell  
In my memory, I remember you still
