You may be mine no more, but I'm forever yours I'll try to handle this, an everlasting rose I saw you then, well I see you now I can't forget you anyhow (I wanna see, I wanna see...)
You told me once that you were never that amused My jokes ain't bad enough, I feel like I've been used And I love it how you smell With your Coco Mademoiselle I saw you the, well I see you now I can't forget you anyhow
