

# The Chainsmokers, Drew Love, Somebody

in the town full of fancy cars and  
crowded bars and supermodels  
looks exactly the way it did inside my head  
when I dreamed about it  
all the things I could live without  
I need it now cause they're all around me  
only thing that I can't afford is to lose myself  
tryna be somebody, somebody

you should've known better  
than to listen to your heart again  
people change with the weather  
you know, just know what I like  
I don't really like anybody  
so don't tell me I'm like anybody else  
you put it back together  
don't let it fall apart again  
people change with the weather

in the town full of fancy cars and  
crowded bars and supermodels  
looks exactly the way it did inside my head  
when I dreamed about it  
all the things I could live without  
I need it now cause they're all around me  
only thing that I can't afford is to lose myself  
tryna be somebody, somebody

somebody  
somebody  
you know, just know what I like  
somebody

in my head I knew better  
I won't blame it on my faults again  
I know I should forget her  
you know, just know what I like  
I don't really like anybody  
so don't tell me I'm like anybody else

in the town full of fancy cars and  
crowded bars and supermodels  
looks exactly the way it did inside my head
