

# The Chainsmokers, It Won't Kill Ya (ft. Louane)

I know as the night goes on  
You might end up with someone  
So why do I bite my tongue?  
I wanna know you  
I'm looking around the room  
Is one of those strangers you?  
And do you notice me too?  
I wanna know you

You're a face I won't forget  
Don't know how much time is left  
Haven't had a moment, yet

Dance with me  
It won't kill you  
And one for the road  
/3x

So why won't you stay a little longer?

Dance with me /2x

You're putting your jacket on  
No, is the moment gone?  
Don't wanna regret this one  
I want to know you

Dance with me  
It won't kill you  
And one for the road  
/3x

So why won't you stay a little longer?

Dance with me /2x
