The Chemical Brothers, Asleep From Day

I know just what your mama said Always misunderstood Gotta tell you something I saw it in your eyes

I think I left your back seat And now it's always good I fell asleep from day And all the promises

There's a lot of people That let their will to say I've got a lot of friends

And they've got beautiful eyes That make my heart feel surprised And you notice it And that's the truth That's the truth

Have me to you I shine along underneath your view I'll be the one To let you know when you've come undone

I like the stars in the sky And watch the moonlight go by I've got a lot of friends
