

# The Chemical Brothers, The Pills Won't Help You

Thought we were going  
And go up the field a ways  
And join all the other living souls  
But you never came

Robbed of your fortune  
You get disappointments in life  
You're probably poisoning your body  
I hope you're alright

In a moment of fear  
You dig in your heels  
The pills won't help you now  
Once you're crying

Thought you were going  
Go up the field a ways  
Join all the other living souls  
But you never came

Robbed of your fortune  
You get disappointments in life  
You're probably poisoning your body  
I hope you're alright

In a moment of fear  
You dig in your heels  
The pills won't help you now  
Once you cry

Robbed of your fortune  
You get disappointments in life  
You're probably poisoning your body  
I hope you're alright

In a moment of fear  
You dig in your heels  
The pills won't help you now  
Once you cry

In a moment of fear  
You dig in your heels  
The pills won't help you now  
Once you cry.
