The Chemical Brothers, We've Got To Try

I Know we can make it girl, Yes I know we can make it girl, If we just try, We've got to try, Got to find a way to me baby

Got to find a way to me baby! Got to find a way to me baby!

I Know we can make it girl, Yes I know we can make it girl, If we just try, We've got to try, Got to find a way to me baby

Got to find a way to me baby!

I Know we can make it girl, Yes I know we can make it girl, If we just try, We've got to try, Got to find a way to me baby

Got to find a way to me baby! Got to find a way to me baby! Got to find a way to me baby!
