

# The Click Five, Pop Princess

I lost myself at your show last night  
Looking at the sparkling eyes  
In the middle of a fresher crowd  
You keep living like you're a movie star  
But tell me who you really are  
When the lights go down

Baby, you're a glitter doll (on the radio)  
I dissolve (in my stereo)  
You've got me  
You've got me coming back for more

Pop princess, hold my hand  
Pop princess, I'm a fan  
Pop princess, I need you now  
Freak me out  
Turn me inside out  
Pop princess, make me smile  
Pop princess, drive me wild  
Pop princess, I need you now  
So baby, turn your love up loud

You were hiding in a darkened stall  
Waiting on your curtain call  
Getting your peace of mind  
But I was looking past the glossy stare  
I knew who was really there  
And I'd like to spend some time

Baby, you're a glitter doll (on the radio)  
I dissolve (in my stereo)  
You've got me  
You've got me coming back for more

Pop princess, hold my hand  
Pop princess, I'm a fan  
Pop princess, I need you now  
Freak me out  
Turn me inside out  
Pop princess, make me smile  
Pop princess, drive me wild  
Pop princess, I need you now  
So baby, turn your love up loud

Baby girl, I think you're radical  
But you're a star and I'm fanatical  
Can we start something new  
Just between me and you?

Pop princess, hold my hand  
Pop princess, I'm a fan  
Pop princess, I need you now  
Freak me out  
Turn me inside out  
Pop princess, make me smile  
Pop princess, drive me wild  
Pop princess, I need you now  
So baby, turn your love up loud (pop princess, pop princess)

So baby, turn your love up loud (pop princess, pop princess)  
So baby, turn your love up loud (pop princess, pop princess)  
So baby, turn your love up loud (pop princess, I need you now)  
Baby, turn your love up loud
