The Click Five, Pop Princess

I lost myself at your show last night Looking at the sparkling eyes In the middle of a fresher crowd You keep living like you're a movie star But tell me who you really are When the lights go down

Baby, you're a glitter doll (on the radio) I dissolve (in my stereo) You've got me You've got me coming back for more

Pop princess, hold my hand Pop princess, I'm a fan Pop princess, I need you now Freak me out Turn me inside out Pop princess, make me smile Pop princess, drive me wild Pop princess, I need you now So baby, turn your love up loud

You were hiding in a darkened stall Waiting on your curtain call Getting your peace of mind But I was looking past the glossy stare I knew who was really there And I'd like to spend some time

Baby, you're a glitter doll (on the radio) I dissolve (in my stereo) You've got me You've got me coming back for more

Pop princess, hold my hand Pop princess, I'm a fan Pop princess, I need you now Freak me out Turn me inside out Pop princess, make me smile Pop princess, drive me wild Pop princess, I need you now So baby, turn your love up loud

Baby girl, I think you're radical But you're a star and I'm fanatical Can we start something new Just between me and you?
