

# The Colour, Tambourine

If it were up to me, you'd never be down  
I got your telephone number from the lost and found  
If you take my hand, can you blow my mind?  
I don't really wanna have to use real guns this time

But are you here to say you're here to stay?  
Don't hesitate, baby I'm leavin'  
When the fun runs out  
Don't you run out on me now...

It's alright now... to feel good

You know just give it a go, give it a go, give it a go  
And when the goin' gets tough and the times get hard  
These days will tear us apart, tear us apart, tear us apart...  
Yeah you know they'll tear us apart  
Yeah don't let 'em tear you apart

And are you here to say you're here to stay?  
Don't hesitate, baby I'm leavin'  
When the fun runs out  
And don't you run out on me now...

It's alright now... to feel good now

You know just give it a go, give it a go, give it a go  
And when the goin' gets tough and the times get hard  
These days will tear us apart, tear us apart, tear us apart...  
Yeah you know they'll tear us apart  
Yeah you know they'll tear us apart

Baby I'm leavin' this time.
