## The Cure, All I Want

Tonight I'm feeling like an animal Tonight I'm howling inside Tonight I'm feeling like an animal Tonight I'm going wild

And all I want is to be with you again And all I want is to hold you like a dog And all I want is to be with you again With you again Just to hold you like a dog

Tonight I'm screaming like an animal Tonight I'm losing control Tonight I'm screaming like an animal Tonight I'm getting so low

And all I want is to be with you again And all I want is to hold you like a dog And all I want is to be with you again With you again Just to hold you like a dog That's all I want
