

The Cure, And nothing is forever

Promise you'll be with me in the end
Say we'll be together with no regret
For however far away
You will remember me tonight

Promise you'll be with me in the end
Say we'll be together and you won't forget
For however far away
You will remember me in time

And slide down close beside me
In the silence of a heartbeat
You'll wrap your arms around me
In a murmured lullaby
Is the memory of the first time
In the stillness of a teardrop
I'll hold you for the last time
In the dying of the life

And i know i know
For my world has grown old
And nothing is for ever

And I know, I know
My world has grown old
But it really doesn't matter
If you say we'll be together

If you promise you'll be with me in the end
Promise you'll be with me in the end

I know I know
My world has grown old
And nothing is forever
And nothing is forever

And i know i know
My world has grown old
But it really doesnt matter
If you say we'll be together
If you promise you'll be with me in the end
Promise you'll be with me in the end

Slide down close beside me
In the silence of a heartbeat
