

The Cure, Bird mad girl

This girl has got a smile
That can make me cry
This girl just burns with love
She's burning burning deep outside
Night time night time
Sets my house on fire
I'll turn into the melting man
I'll lose my life
To feel I feel desire
Oh I should feel
Like a polar bear...
It's impossible
She flies outside this cage
Singing girlmad words
I keep her dark thoughts deep inside
As black as stone
And mad as birds
Wild wild wild
And never turn away
Sends me all her love
She sends me everything
She sends me everywhere
Oh I could be
A polar bear...
It's impossible
I try to talk
The sky oges red
I forget
So fill my head
With some of this
Some of that
Some of every word she said
Oh I should be
A polar bear...
But it's impossible
