

# The Cure, Halo

I never felt like this with anyone before  
You only have to smile and I'm dizzy  
You make the world go round  
A thousand times an hour  
Just touch my head  
And send me spinning

I never felt like this with anyone before  
You show me colours and I'm crying  
You hold my eyes in yours  
And open up the world  
I can't believe all this

I want to keep this feeling  
Deep inside of me  
I want you always in my heart  
You are everything

I never felt like this with anyone before  
You fill my head all full of rainbows  
And all the rainbows end  
Is every step you take  
Just to be with you forever

I want to keep this feeling  
Deep inside of me  
I want you always in my heart  
You are everything
