

The Cure, NY Trip

NY Trip

One by one they drop you said
Left us two on a ride stopped dead
Its monkeys on the track
All fell out of their tree
Lost their tails I said
In the deep dark sea
So take me on the ice and push me around
And every time I fall I kiss the ground
You skate on by without a sound
Yeah Im in love with you cold
Any warmer and I drown
Whatever you want
Whatever you need
Oh anything at all
Im only here to please you
In any way I can
Theres really nothing in the world
I wont do
To get a New York Disney smile from you
Ow! Youre so beautiful it hurts
Ow! The most beautiful girl I ever
Ow! Too beautiful for words
Now please! Inside beside me
And lets take on the world
One by one they drop you said
Left us two on a ride stopped dead
Its hard to be sure
But I swear theyre whales
Swimming down the line
Spitting monkey tails
So drag me on the floor and get me to twirl
And every twist around I buss you first
You spin right through
A perfect blur
Yeah Im in love with you quick
Any slower and I burst
Whatever you want
Whatever you need
Yeah anything at all
Im only here to please you
In any way I can
Theres really nothing
I wont do
To get a New York Disney smile from you
Ow! Youre so beautiful it hurts
Ow! The most beautiful girl I ever
Ow! Too beautiful for words
Now please! Inside beside me
And lets take on the world
One by one they drop you said
Left us two on a ride stopped dead
Its vultures on the rail
And theyre packed down tight
Best get close I said
This could take all night
