

The Cure, The Same Deep Water As You

Kiss me goodbye
Pushing out before I sleep
Can't you see I try
Swimming the same deep water as you is hard
The shallow drowned lose less than we
You breathe
The strangest twist upon your lips
And we shall be together...

Kiss me goodbye
Bow your head and join with me
And face pushed deep
Reflections meet
The strangest twist upon your lips
And disappear
The ripples clear
And laughing
Break against your feet
And laughing
Break the mirror sweet
So we shall be together...

Kiss me goodbye
Pushing out before I sleep
It's lower now and slower now
The strangest twist upon your lips
But I don't see
And I don't feel
But tightly hold up silently
My hands before my fading eyes
And in my eyes
Your smile
The very last thing before I go...

I will kiss you
I will kiss you
I will kiss you forever on nights like this
I will kiss you
I will kiss you
And we shall be together...
