

# The Darkness, Dinner Lady Arms

We had a good thing, it was a blast  
That was a long time in the past  
You went through changes & I walked away  
And I have regretted that to this day

I may not always have quite so much hair  
But what you saw in me will hopefully always be there  
I'll never hurt you again, I swear.

## Chorus

So put your arrrrms around me, your dinner lady arms  
Put your arrrrms around me, your dinner lady arms  
I couldn't figure out where your figure'd gone  
I thought that I could live without you, baby I was so wrong  
Put your arrrrms around me, your dinner lady arms dinner lady arms

Forgive and forget I caused you some pain  
And find it in your heart to start again  
Now I may not ever be your Mister Right  
But I'm happy to be your mister that will do for tonight  
I'll never let you out of my sight

So put your arrrrms around me, your dinner lady arms  
Put your arrrrms around me, your dinner lady arms  
I couldn't figure out where your figure'd gone  
I thought that I could live without you, baby I was so wrong  
Put your arrrrms around me, your dinner lady arms

## Solo

I may be light-years past on my sell-by date  
But there's life in the old dog yet, honey, it's not too late  
Put your arrrrms around me, your dinner lady arms
