

The Darkness, Open Fire

Don't waste my time with changes
I'm living my life left
Every semblance of hope in his life
Surrenders to this pain
So I embrace the darkness
Cause it's always there

Give me an open fire
Blazes in your eyes
Burns right through the night
(Open fire)
I could live nocturnally
I could live without daylight
(Open fire)
Give me a hug on a sheepskin rug
Tell me that we'll never part
(Open fire)
Open fire, on my heart
(Open fire)

The world's got a dark side
Every day it turns
But the sun only shines occasionally and when it does it burns
I am not enlightened
Everybody knows

Give me an open fire
Blazes in your eyes
Burns right through the night
(Open fire)
I could live nocturnally
I could live without daylight
(Open fire)
Give me a hug on a sheepskin rug
Tell me that we'll never part
(Open fire)
Open fire, on my heart
(Open fire)

Give me an open fire
Blazes in your eyes
Burns right through the night
(Open fire)
I could live nocturnally
I could live without daylight
(Open fire)
Give me a hug on a sheepskin rug
Tell me that we'll never part
(Open fire)
Open fire, on my heart
(Open fire)
