

The Darkness, Stuck In A Rut

Kiss my arse, kiss my arse goodbye
Propelled by a carriage of aluminium am I
No more to rot in this sty
Turn my back on this shit-hole in the blink of an eye

Gimme the keys
You ain't gonna see me for dust
The Barnby Bends ain't gonna get the better of me
Gimme the keys
To any old bucket of rust
The acle Straights are gonna take me where I wanna be

Stuck in a rut
Stuck in a rut for eternity
Stuck in a rut
Stuck in a rut for eternity

The road is long and the lights are bright
Just 'cos you've lived here all your life doesn't make it alright
And the golden mile is paved with shite
Don't mind telling you I'm sick of walking up and down it every single fucking night

Gimme the keys
You ain't gonna see me for dust
The Barnby Bends ain't gonna get the better of me
Gimme the keys
To any old bucket of rust
The acle Straights are gonna take me where I wanna be

Stuck in a rut
Stuck in a rut for eternity
Stuck in a rut
Stuck in a rut for eternity

Stuck in a rut
Stuck in a rut for eternity
Stuck in a rut
Stuck in a rut for eternity
