

The Dingeers, General Information

Everybody knows the general information
But that don't mean a thing in any situation
Gotta look at it turned around, inside out and upsidedown
Sleepwalking though a waterfall,
thinking backward till you hit the ground
We all got the same useless education
Ending up rotting out in a dead end occupation
Its people like you and its people like me
And in every way to be people need to be free
I want more than the general information
Pop culture so imploded its got me feeling cracked out
I know they got me recorded CIA on the lookout
Uprise upheaval upstart over tyranny
I know they got my people under radioactivity
We want more than your general information
We want more than the general information
Gotta get the job done, there won't be no other way,
no, when I say information give it away
