## The Go-Go's, It's Everything But Partytime

This is the place for celebrating
This is the crowd that's fascinating
This is the time for concentrating
To hear some words worth translating

He's rapping 'bout his meditating She's dying for some medicating And though I shouldn't be complaining What's lacking here is entertaining

## **CHORUS**

We're all looking for a good time But what we get is empty rhyme When everything's right but nothing's fine It's everything but partytime

Talk about decorating A room that needs sophisticating When coversations become straining No one's good at interest feigning

**CHORUS**
