The Goo Goo Dolls, Up, Up, Up

Are you listenin' now? Are you feelin' that way Aren't you terrified? Of wakin' up too tired to try again?

Are you happy now That you've shut yourself down Are you paralyzed By all the nonsense that's gone down

I know you're gonna see these things some day

Sorry-eyed we spent so much of your time Now I'm tryin' to put your riddle to a rhyme Now it's up up up I'm headin' for this evenin' And it's up up up I'm headed for the clouds

Comin' down ain't the worst part It only takes a second To make a change that's gonna last

I hope you're gonna see these things some day So don't stop lookin' for that light along the way

Sorry that we've spent so much of your time Now I'm tryin' to put your riddle to a rhyme Now it's up up up and headin' for this evenin' And it's up up up I'm headed for the clouds
