The Jayhawks, Stick in the mud

I've been getting by I've got no cross to bear But Im still getting there Chorus: You've got me down on my knees Begging you please dont leave Let me be nice to you Youre still my best friend Who says this is the end Why do good things divide Why did they all choose sides Slow steady wins the race Slow steady wins the race You've got the sweetest eyes You just couldn't be mean See you down on Skyline Drive (Chorus) *3 (Fade)
