

# The Jesus And Mary Chain, Supertramp

Reload and do it again now I'm a real believer  
Go ahead and push it again yeah I'm a real believer  
Liberate my mind  
It's penetration time  
Open up and tell me you know that I'm a real believer

Couldn't tell a drug from a sin but I could run forever  
Couldn't tell a spike from a pin but I could run forever  
Christ knows if I'm done  
Well he's the only one  
Open up and tell me you know that I could run forever

We know that we've blown the past  
Maybe we could change the future  
Don't think twice and don't look back  
Maybe if we run then maybe we could run forever

(I'm a real believer  
I'm a real believer  
I'm a real believer  
I'm a real believer)
