

# The Kelly Family, First Time

Today for the first time  
For the first time  
You took my hand  
Today for the first time  
Touched a warm heart  
What a lucky girl  
Cause you opened your heart  
And you gave it to me  
So dont tell me that you dont love me  
You opened your heart  
And you gave it to me  
So dont tell me that you dont need me  
For me for me  
Youre the one youre the world  
Someone is anyone there  
My body needs warmth  
Its a mad mad world  
Today for the first time  
I heard my heart stop  
As he flew away  
Open your heart  
And give it to me  
And dont tell me that you dont love me  
Open your heart  
And give it to me  
And dont tell me that you dont need me  
Sometimes I just fall and break  
Sometimes it just overflows  
I cant take no more  
I cant take no more no more  
Open your heart  
Tonight for the first time  
All the stars shine  
But youre the brightest one  
My love
