

# The Kiffness, I Need Something (Singing Cat Song)

I need something  
What's the matter with you?  
Who's calling me?  
Let's all go together

I need something, been feeling it forever  
It's calling me, we need to go together  
A journey through sunshine and stormy weather  
We'll make it through, let's all go together

I need something  
What's the matter with you?  
Who's calling me?  
Let's all go together

As long as we're together then we'll never be alone  
I'd rather be here than be on my own  
Let's all go together

I need something  
What's the matter with you?  
Who's calling me?  
Let's all go together
