

The Killers, Shot At The Night

Once in a lifetime, the suffering of fools
To find our way home,
To break in these palms
Once in a lifetime
Once in a lifetime
Once in a lifetime

Give me a shot at the night
Give me a moment,
Some kinda mysterious
Give me a shot at the night
Give me a moment,
Some kinda mysterious

Once in a lifetime,
The breaking of the roof
To find that our home,
Has long been out grown
Draw me a life line,
'cause honey I got nothing to lose
Once in a lifetime (Once in a lifetime)
Once in a lifetime

Give me a shot at the night
Give me a moment, some kinda mysterious
Give me a shot at the night
Give me a moment, some kinda mysterious
Give me a shot at the night

Look at my reflection in the mirror
Underneath the power of the light
Give me a shot at the night
Give me a shot at the night
Give me a shot at the night
I feel like I'm losing the fight

Give me a shot at the night
Give me a moment,
Some kinda mysterious
Give me a shot at the night

Give me a shot at the night
Give me a moment,
Some kinda mysterious
