

# The Kills, DNA

When it came to pass,  
Loaded, pass me by  
Fate, with a single blow,  
Has clustered by me now  
True, I had my chance,  
True, true, true I had those wild charms for you  
Oh, oh...

My fire burned them out  
But we will not be moved by it [2x]  
Your mind would never ache,  
When you were young and sound  
The way your heart aches now,  
You feel you sent them onto ground  
Love, love, love til you got enough,  
Dance, dance, dance, if you got no love around you Love, love, love, til' you got enough,  
Dance, dance, dance, til' there's noone left to hound you  
We will not be moved by it [2x]  
Oh, oh...

Love, love, love til you got enough,  
Dance, dance, dance, if you got no love around you Love, love, love, til you got enough,  
Dance, dance, dance, til' there's noone left to hound you  
We, we will not be moved by it [4x]
