

# The Kills, Fuck The People

You want a warning  
You got a warning  
You want a warning  
You got a warning  
Bet you something I can get your mouth shut  
Bet you something I can get your mouth shut  
You want a warning  
Ya' got a warning  
Stab your back  
You want a warning  
You got a warning  
Stab your back  
You want a warning  
You got a warning  
Stab your back  
Bet you something I can get your mouth shut  
Bet you something I can get your mouth shut  
You want a warning  
You got a warning  
Stab your back  
Hey, fuck the people  
Hey, fuck the people  
Last moon a cigarette  
Hang myself on a chandelier  
Laughin' at another on a funny thing  
Bet you something I can get your mouth shut  
Bet you something I can get your mouth shut  
You want a warning  
You got a warning  
Stab your back  
Hey, fuck the people  
Hey, fuck the people  
Bet you something I can get your mouth shut  
Bet you something I can get your mouth shut  
You want a warning  
You got a warning  
Stab your back  
Last moon a cigarette  
Hang myself on a chandelier  
Laughing at another on a funny thing  
Bet you something I can get your mouth shut  
Bet you something I can get your mouth shut  
You want a warning  
You got a warning  
Stab your back  
Hey, fuck the people  
Hey, fuck the people  
Fuck the people
