

# The Maccabees, Lego

Mum said no to Disneyland  
And Dad loves the church  
Hallelujah, Oh, Oh

And the boys chew lego  
So now we cant build castles or robots  
Cause the pieces don't fit together

So look left and look right, cross the road but hold my hand  
Look left and look right, cross the road just hold my hand  
And we'll hold on, and we'll hold on

Only one, where once stood four  
And closest to the kitchen floor  
Family favourite

Today we learn't  
That screaming are we there yet  
Doesn't get you there any faster

So look left and look right, cross the road but hold my hand  
Look left and look right, cross the road just hold my hand  
And we'll hold on, and we'll hold on

Cross the roads and say goodbye  
Cross the roads there wasn't a dry eye  
You cross the road and say goodbye  
There wasn't a dry eye, cross the road wasn't  
A dry eye, there wasn't a dry eye!
