

# The Mavericks, I Got You

(Raul Malo and Radney Foster)

It's one of those days  
When trying to make a dollar's  
got me wearing thin  
And what I thought was right  
Just turned out to be wrong again  
You know it don't pay  
To have a broken back from  
carrying all those worries 'round  
Honey I have found

Chorus

I got you to make me love you  
I got you to make me care  
I got you right here beside me  
When nothing else is there  
It don't matter about the money  
'Cause I got your lovin' honey  
And I could lose it all today  
But I got you

You know me well  
Well enough to know if it's me  
or only my foolish pride  
That make me say the things to  
you that only make you cry  
And you can tell  
When the time is right to hold  
me tight or let me go  
Darling I need you so

Repeat chorus

I wish there was a way  
But words could never say  
The love I feel today  
'Cause I got you
