

# The Monkees, Circle Sky

circle sky  
telling lies  
here i stand  
at demand

and it looks weve made it once again  
and it looks weve made it once again

color sound  
all around  
wing tip smile  
sees for miles

and it looks weve made it once again  
and it looks weve made it once again

its a very extraordinary scene  
to those who dont understand  
but what you have seen you must believe  
if you can  
if you can

hamilton  
smiling down  
telling more  
than before

and it looks weve made it once again  
and it looks weve made it once again
