

The Monkees, French Song

A little girl
Goes out walking in the night
A little boy
Calls, "Good evening"
From the light
They stop to talk for just a while
Then she's gone

A little girl
Sits beside her window pane
Thinking about an evening in the rain
A little talk, a little boy
Then she's gone

A little girl
Goes out walking
Once again
A little boy
Finds that he has done the same
They stop to talk for just a while
Then they're gone...
