The Moody Blues, Thank You Baby

Thank you, baby,
You stood by me when times are blue.
Thank you, baby,
And now I'll make it up to you.
Gonna make time stand still,
You know I will,
Gonna make time stand still.
And every day I'm gonna say,
And every day, oh babe,
And every day, I'm gonna say
Thank you, baby,
You give me love and pull me through
Thank you, baby,
For the time I needed you.
I'm gonna make time stand in one place,
I'm gonna make time stand still.

And every day I'm gonna say
The little sad man's gonna help me (well, that's what it sounds like to me)
No, every day, I'm gonna say,
Thank you, baby,

Even though they're not too long ago
I saw my troubles grow,
Grow and grow.
Wiith you by my side, little baby,
You've made them run and hide,
Never, yeah, to show -ow -ow -ow, to show
Thank you, baby,

Oh, you give me love and pull me through,
Thank you, baby,
For the time I needed you,

Yeah I'm gonna make time stand in one place,
I'm gonna make time stand still,
And every day, even every nght, I'm gonna say
And every day I'm gonna say,
Thank you, baby,
Oh, thank you, baby,
Thank you very much.

Thank you, baby,
Thank you, baby,
(repeat to fadeout)
