

# The National, Demons

When I think of you in the city  
A sight that you on the sides  
Get this sudden thinking feeling  
Of a man about to fly  
Never kept the ... before  
Now I've been awake for days  
I can't fight it anymore  
I'm going through an awkward phase  
I am sick of being in love with  
Everyone that I grew up with  
Till I cry in underwater  
I can't get down any further  
All my ...  
Now there is no running from  
It's become a ...  
I wish that I could rise above it

But I stay down with my demons  
And I stay down with my demons

Passing buzzles in the sky  
Alligators in the cities  
I don't need wonder why

...  
I sincerely try to love it  
I wish that I could rise above it

But I stay down with my demons  
I stay down with my demons /3x

Can I stay here?  
I can sleep on the floor  
Painted blood and ... on the door  
Do not think I'm going to places anymore  
I wanna see the sun come up above me all  
Every day I ... in the sun lighters  
The less I love, the more I see  
The perfum on the lips

...  
Do not know what's wrong with me  
I guess I was in ...  
When I walk into the room I do not let it go

Fuc\*  
So I stay down with my demons  
I stay down with my demons /3x
