

The National, The System Only Dreams in Total D

Maybe I listen more you think
And I can tell that somebody sold you
We said we'd never let anyone in
We said we'd only die of lonely secrets

The System Only Dreams in Total Darkness
Why are you hiding from me?
We are in a different kind of thing now
All night you talking to God

I thought this was over ...
Now you're saying that I'm asking for too much attention
The faith is not enough for this place
We said we'd only die of lonely secrets

The System Only Dreams in Total Darkness
Why are you hiding from me?
We are in a different kind of thing now
All night you talking to God

I can't explain that
Any other
Any other
Way
I can't explain that
Any other
Any other
Way

The System Only Dreams in Total Darkness
Why are you hiding from me?
We are in a different kind of thing now
All night you talking to God

I can't explain that
Any other
Any other
Way
I can't explain that
Any other
Any other
Way
