

# The Other Ones, Woman In Luv

I know a woman in love  
I get on the phone  
And she comes home to me  
She never gets stoned  
She's always at home  
She gives the dog a bone  
And I love it when she moans  
I know a woman in love with me

BRIDGE  
Her lover sighs  
As she's looking thru a window  
And she's not alone  
As she's basking in the afterglow

CHORUS  
Love, hold me closer  
You give a little love, but you take it away  
Oo, hold me closer

Sundown to sunup  
I'm rundown and strung up  
The woman's in love  
But she knows what she's doing  
I know a woman in love with me

BRIDGE

CHORUS

You give a little love, but you take it away  
Oo, hold me closer  
You give a little love, but you take it away  
Oo, hold me closer

I know  
A hot shot woman

A woman, a woman in

CHORUS

You give a little love, but you take it away  
Oo, hold me closer  
You give a little love, but you take it away  
Oo, hold me closer
