

The Pretty Reckless, Only Love Can Save Me Now

Heavens falling out of the sky
Sends a message to you, and I
See people crawling out of their trees
Chained to sickness, the dogs are free

I want to be saved
From the sound /2x
The world is spinning out

Only love can save me now
Gone so down
Lost is all i found
Only love can save me now

Drowning madly in deep blue seas
Waves of sadness swallow me
No soul can hear me beneath the weight
No gods or saviors
No hands of fate

I want to be saved
From the sound /2x
The world is spinning out

Only love can save me now
Gone so down
Lost is all i found
Only love can save me now
