The Project Hate MCMXCIX, Believing Is Bleedin

Walk beside Me and seek serenity Walk with burnt wings, wings that I burned Inhale Me lost ones, experience My hell You are all lost in sweet beauty, I yearn So yearn now My angel, yearn for your breath I give to you what you deserve, the sweet kiss of death I feed you your heart, bitter taste of love And breed with thee, forsaken flea, fallen from above Taste My Ecstacy, the sweetness of it all I am decieved and I am reborn I will bless thee with My flesh You're forsaken and You're forlorn Don't fear Me angels, I'll show you other Truths Listen to the Chants of My soul Don't fear Me angels, I'll show you other Truths Listen to the Chants of My soul So I kiss the angels and bid them farewell Oh, I kill the angels Believing is Bleeding So bleed now My angel, bleed to be free All You've seen have been surreal, cheated and decieved Now follow Me, I'm heaven, through hollow skies and lies Bid farewell, save youself, I am Your Christ Taste My Ecstacy, the sweetness of it all I am decieved and I am reborn I will bless thee with My flesh You're forsaken and You're forlorn And finally My angel, bleed one last time Bid farewell to innocence, kill what's divine And say goodbye to heaven, the holow skies and lies Open up your bleeding eyes, believe Me... I'm Your Christ So I kill the angels And bid them farewell Believing is bleeding

And Bleeding is Believing
