

# The Rasmus, Liquid

I go liquid when you come around  
And I know  
I go solid but don't get me wrong  
Yes I go  
I love to watch you when you mess around  
With my mind  
I'm pathetic but only this time  
But who knows?

And I say...  
It's no more a secret  
Go solid, I go liquid  
Oh me...  
If it's the love that we live for how come I didn't know?  
Show me an easy way out  
Show me an easy way out

Forget the love 'n' get back in the line  
With yourself  
Try to accept the place where you belong  
You belong  
I love to teach you though you already know  
This time  
Stay in touch if you're planning to go  
Below

And I say...  
It's no more a secret  
Go solid, I go liquid  
oh me...  
If it's the love that we live for how come I didn't know?  
Show me an easy way out  
Show me an easy way out.
