

# The Rasmus, Live and Never Die

Will I fight or will I run  
In a battle without a gun  
Will I jump through rings of fire  
Fly even higher into the sun

When you're born to be a fighter  
The countdown's getting tighter  
Your life is on a timer  
And time ain't on your side  
The cards are on the table  
From the day you leave the cradle  
You don't even need a reason why...

Just live and never die  
Cause every day's another precious diamond  
Live and never die  
Cause everything you do you do for love

How could I know what I would do  
In the face of danger don't have a clue  
So will I ride on the midnight train  
And leave an angel calling out my name

Life spins you like a dancer  
Till you're kicked out by The Bouncer  
Revenge can't be the answer  
To fix your broken pride  
Just do the world a favor  
And don't become a hater  
You've got to forgive and let it slide

Just live and never die  
Cause every day's another precious diamond  
Live and never die  
Cause everything you do you do for love  
Live and never die  
Cause every breath that you take's another chance don't waste it  
Live and never die  
Cause every second's a miracle now ain't that enough

When you're born to be a fighter  
The countdown's getting tighter  
Your life is on a timer  
And time ain't on your side  
The cards are on the table  
From the day you leave the cradle  
You don't even need a reason why...

Just live and never die  
Cause every day's another precious diamond  
Live and never die  
Cause everything you do you do for love  
Live and never die  
Cause every breath that you take's another chance don't waste it  
Live and never die  
Cause every second's a miracle now ain't that enough  
Cause every day's another precious diamond  
Cause everything you do you do for love
