

# The Raveonettes, Observations

To live like other people  
I never think I'd do  
And see my love i give into this dark

Flowers sing the day time  
And this is sure at night  
This woman said I'm torn between 2 lights

Visions of your lover's  
holding you some dreadful lights  
Wishing they will never be apart

It's so hard how can I hold on  
To someone I can not have  
Obsessed with all the things that we could do

Take me on a night drive  
And take me on again  
The quiet trip we're living  
I'd never think I'd do  
And to find someone love me really nice
