

THE ROOKLES, Best Days Of Our Lives

I'm never stopping
When I'm rolling down the road
Give me love and understanding
All I need before I get old

Strange thing has happened
Everything is turning green
We are doing all we can
And I can see, d'you know what I mean?

I can't hide this feeling deep inside
We are having best days of our lives

Something is going on and we are rolling all the way
The road is like a second home
We're all together
Day by day

Hello again, tell me how long has it been
Since we've come and got it on?
It's on, let it roll
Rock and roll, oh yeah!

I can't hide this feeling deep inside
We are having best days of our lives

Why am I sleeping?
Are we playing one more time?
We are doing all we can
It's time to say good luck and goodbye
It's time to say good luck and goodbye
It's time to say good luck and goodbye
